

Hope Secondary School Happy Easter

End of School Year 2018/2019

It is April; one month before the school-year comes to its end in the Holy Land. It was a very hard year at Hope School, full of challenges; our financial crisis continued to be a critical obstacle to delay or completely abolish some of the planned activities, two of our key personnel left the school seeking for a better salary. Yet, our heavenly father is good enough to feed his children and fulfill their needs. In the full-half of the cup we can see the achievements that have been accomplished over the year; the new dormitory of the boarders was rehabilitated and ready to host the boarders, an olive-wood workshop was established and run by one of our boarders (Simon), a new class was established to host grade TWO children as planned, Students' academic performance improved conceivably. The gifts of our faithful friends still represent the main source of the school income.

We wish you all a Happy Easter

Children of Kindergarten have the lion's share of the school activities; they were involved in several extra-curricular activities including; the women day, the mother day, Christmas festival, open day, Halloween festival, visit to the chicken farm, visit to local charitable organizations (elderly people). Besides, parents were increasingly involved in KG activities. They were very happy to share their children's happiness and participate and help their children in doing their work.

I am the resurrection and the life. The one who believes in me will live even though they die”

Simon's workshop: A major project was established this year which represent an added value to our work. The new project will open a new horizon in our scope of work, it will be the core incubator for a vocational training center that provides vocational training for our children. Simon's Olive wood workshop. Is established in a newly constructed room built by TeenMission group who camped at the school for one month.

Hope School establishes Grade 2 class: Based a thorough plan to gradually enhance the school capacity, Hope school established grade 2, where 8 children are able to get their education properly. Over the past three years the school started the Kindergarten “the little Angel”, grade one and grade two. Recently the class participated in the Halloween festival, where every child got a different dress. They were very happy to have their new dress and represent different personality.

We extend our sincere gratitude to all faithful friends who never hesitate to extend a hand of help to our children and support us in the hard times.

On March 29th, 2019, Hope school participated in Peace Education Camp which was organized under the patronage of Bishop Elias Chahcour. Over 100 students and teachers participated in one day camp which was held with the help of the Korean institute "HWPL": Heavenly Culture, World Peace Restoration of Light. The camp included students from three schools; Hope School - Beit Jala, St. John school - Haifa and Mar Elias School – Ibillin .The camp was held under the motto: **“We are one”**

The school received generous donation to purchase a vehicle for the kindergarten. No word can express our gratitude to our faithful friend to donated the car.
