

Graduation at Hope School 2017

At Hope School, Graduation Day this year has a new flavor: in addition to the 18 high-school graduates, 6 pre-school children, enrolled in the Kindergarten, have graduated too. It was a wonderful sight when the graduates (both youth and children) entered the hall and got up to the stage to the rhythm of the Boy Scout's drums and bagpipes.

May 20th, 2017 is a unique day for all our graduates. "It is a distinguished day, I am moving to another stage of my life, many thanks to you, to my teachers and to my parents who were the true support for me," said Yazan, one of the seniors. The ceremony included many parts: reading the Bible, official speeches from the administrations, English and Arabic speeches from the graduates,

a musical performance by two sophomores, and finally the dance and music show by the kindergarten children, which the audience thoroughly enjoyed. These youngsters will move on to form our first ever first-grade class next year, and each year thereafter they will continue to be pioneers in forming Hope School's elementary section. We are thrilled about this development, and we are writing to share with you our enjoyment as this special ceremony of graduation has become even more extraordinary. Thanks to you for your support and camaraderie with us along the way.
